

Supplement to Certificate of Compliance

Certificate: 2494369

Master Contract: 254100

The products listed, including the latest revision described below, are eligible to be marked in accordance with the referenced Certificate.

Product Certification History

Project	Date	Description
70032715	Nov 2, 2015	Transformer enclosure (DK4141 gasket) with CSA Type 3R rating to CSA C22.2 No. 94. Review UL gasket test data. A new quote will be provided if additional test is required. Rain test for CSA Type 3R will be done on a representative sample at CSA. The sample shall be made with the max distances of two adjacent sealing bolts along the gasket as shown in engineering drawing.
2494369	Jun 8, 2012	Original Safety Certification for Dry-Type Distribution Transformer up to 500kVA.
